Robotics Workshops

Yesterday, 8th December 20 lucky Year 5/6’s headed off to Narooma High School to participate in a Robotics Workshop. It was an amazing experience and everyone was on their best behaviour. The workshop commenced at 9:30am and finished at 11:30am. The three activities included in the workshop were Programming Robots, Build Your Own Robot and Think Like a Robot. All three were great fun. Programming Robots was really fun. We had to plug the robots into the laptops and program them to move and do things a certain way to achieve different goals. In Build Your Own Robot we were given an engine and base of a robot car and then we had to add wheels and pimp it. After we designed our cars we got to drive them around. And finally there was Think Like a Robot where we had to get in pairs and one of us had to write down instructions of what they wanted the other to do. Then we put blindfolds on and took turns trying to put a ball of paper in the bin. Overall the day was fantastic and we would like to thank Narooma High School for inviting us to this day and putting time and effort into making sure we had a great time. Thank You.
